

Beautifully finished, our Inspire range of heaters are the highest quality on the market and are available in a number of finishes ranging from white panels to picture and glass panels. Manufactured to the highest standards in Germany, they are designed and built to last a lifetime and come complete with a 10 year warranty.

INSPIRE BLACKBOARD Far Infrared heaters are made from high-quality, reinforced safety glass (ESG) and come with a matt black finish. These unique and stylish heaters combine sophisticated design with optimum safety and energy efficiency, offering innovation at its best.

In addition to being highly efficient and stylish heaters, the **INSPIRE BLACKBOARD** heaters serve a dual-purpose as they can also be used as useful memo boards for all those important reminders, messages and fun designs.

INSPIRE BLACKBOARD heaters provide a practical, modern and tasteful solution for both homes and commercial environments such as bars, restaurants and shops. Available in 3 sizes with models ranging in power from 750 to 1150 Watts, this versatile far infrared heater has an IP rating of IP54 (indoor use only)

The Inspire panels are specifically designed to be maintenance free and to last for many years. For this reason, and to enable accurate temperature control and efficiency, the panels do not have any in-built controls and must be used in conjunction with the Herschel MD2 thermostat or equivalent.

- INSTALLATION: Wall mounted

WARRANTY: 10 years
(Refer to the warranty policy on Herschel-infrared.com for more detail including exclusions)

AVAILABLE MODELS

Model	Part No.	Dimensions	Weight	Rated Power	Heated Area
INSPIRE BLACKBOARD	HB-750	27.5 × 35.4 in	28.7lbs	750W	11-18m ²
	HB-900	31.5 × 39.4 in	35.9lbs	900W	13-22 m ²
	HB-1150	31.5 × 47.2 in	44.1lbs	1150W	17-29m ²

The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

The Inspire panel comes with two mounting brackets. When installed, the front of the panel will extend a total of 2" from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.

6 REASONS WHY

- ✓ 100% natural
- ✓ Heats objects, not the air
- ✓ Less damp and mould
- ✓ Reduced energy use
- ✓ Maintenance free
- ✓ CO2 free when used with renewable energy
